RPE: 3654

Thank You

for your reception report. WISM AM broadcasts on a frequency of 1480 Kilohertz with a power of 5,000 watts. We are directional night & day using a Collins 21E 5,000 watt Transmitter. WISM FM broadcasts on a frequency of 98.1 Megahertz with an effective radiated power of 20,000 watts. Our antenna stands 480' above average terrain being driven by a Gates FM 5G Transmitter. Thank you for your interest in WISM.
